

# Walking On Water

The Knocks

I wanna tell you how, over and over  
Real love feels like walking on water  
I wanna tell you we'll be here forever  
Real love feels like walking on water

Some things never end, it's you right beside me  
Some things never end, it's you right beside me  
Some things never end, it's you right beside me  
Some things never end, it's you right beside me

You always will remember  
Ooh-oooh (you never will forget)  
You never will forget her  
Ooh-oooh

I wanna tell you how, over and over  
Real love feels like walking on water  
I wanna tell you we'll be here forever  
Real love feels like walking on water

Some things never end, it's you right beside me  
Some things never end, it's you right beside me  
Some things never end, it's you right beside me  
Some things never end, it's you right beside me
