

Great Escape

The Kolors

We come from the low life
But we dance in the limelight
Don't go denying
Why try to fight it
You'll hear us coming
When we come up running
We're burning like matches
You'll never catch us
We won't stop for anyone
And we we'll be cashing down the Sun

This could be our great escape
This could be our great escape
Don't wait til the morning
Don't wait til the morning
This could be our great escape
This could be our great escape
Don't wait til the morning
Don't wait til the morning

So tired of waiting
All out of patient
We don't need permission
We Made our decision
We won't stop for anyone
And we we'll be chasing down the Sun

This could be our great escape
This could be our great escape
Don't wait til the morning
Don't wait til the morning
This could be our great escape
This could be our great escape
Don't wait til the morning
Don't wait til the morning

We long, we long
Just to be there
We long, we long
For everything we never had
We long, we long
Just to be there
We long, we long

This could be our great escape
This could be our grat escape
Don't wait til the morning
Don't wait til the morning
This could be our great escape
This could be our great escape
Don't wait til the morning
Don't wait til the morning
