

# High

The Kolors

I wanna know about you baby  
'Cause of  
The way you walked into the show and just owned it  
You're floating through the room  
Getting lost in the moment  
Lost in the moment

I don't wanna share you with  
Anybody else  
Don't you wanna show me  
The lights  
I know you can take me there  
I get chills and it feels beside you  
Here there is no one else  
You're just everywhere  
You're just anywhere

Now you got me high  
You're dancing while I'm dreamin'  
To touch you and lead you through the night  
And you drive me wild  
One look and I am flying  
You touch me and I feel alright  
With a lighter love and a stronger heart  
Tell me, who are you deceiving?  
With a lighter love and a stronger heart  
Till the break of dawn  
I'll give you a reason to keep dreaming

I know that someone else has hurt you before  
Now you roll the dice and  
Wanna start over

Your light is shining bright  
And we're getting closer  
We're getting closer... hey hey

I don't wanna share you with anybody else  
Don't you wanna show me the lights  
I know you can take me there  
I get chills and it feels beside  
You, here there is no one else  
You're just everywhere  
You're just anywhere

Now you got me high  
You're dancing while I'm dreamin'  
To touch you and lead you through the night  
And you drive me wild  
One look and I am flying  
You touch me and I feel alright  
With a lighter love and a stronger heart  
Tell me, who are you deceiving?  
With a lighter love and a stronger heart  
Till the break of dawn  
I'll give you a reason to keep dreaming
