The Kolors

Hey  
You say you need to get away  
Today  
You say you need me but I'm  
Not the Same  
That's just another way to  
Complicate  
The Game

(No, oh oh oh oh)  
Staying up all night  
Checking through my photo likes  
But I never lied  
So I'm not going to apologize

The summer is gonna kill it  
Why don't you let me dream it  
Anymore  
Dancing away my feelings  
Why don't you let me live with  
No Love!

(Wooo oh oh oh)  
I need something  
I don't want the world  
I don't need no love  
I don't want the world  
I don't need no love!

Hey  
I'm sick of all the mess just get  
Away  
You say I twist the truth in that way you  
Hate  
And every second makes it  
Way too  
Late

(No, oh ohohohoho)

Staying up all night  
Checking through my photo likes  
But I never lied  
So I'm not going to apologize

The summer is gonna kill it  
Why don't you let me dream it  
Anymore  
Dancing away my feelings  
Why don't you let me live with  
No Love!

(Wooo oh oh oh)  
I need something  
I don't want the world  
I don't need no love  
I don't want the world

I don't need no love!

I needed something  
I don't want the world  
I don't need no love!

I want you to realize what you've become  
After all this time...

I want you to realize what you've become  
After all this time...

I want you to realize what you've become  
After all this time...

I want you to realize what you've become  
After all this time...

I want you to realize what you've become  
After all this time...

The summer is gonna kill it

Why don't you let me dream it

Anymore

Dancing away my feelings

Why don't you let me live with

No Love!

(Wooo oh oh oh)

I need something  
I don't want the world  
I don't need no love  
I don't want the world  
I don't need no love!

(Woo ohohoho)

I needed something  
I don't want the world  
I don't need no love!
