

# Realize

The Kolors

You are never gonna realize and  
You wanna know the reason why  
She is just loving goodbyes  
And every time you start to wonder  
But every little thing you have got  
Or every woman you walk by

This whole world do not mean a thing  
Now that you are gone  
(As I realize, as I realize, as I realize)  
This whole time I have been dreaming  
And now you are gone

Are you ever gonna realize that  
You better put yourself aside  
But it is a matter of time  
Anyone is trying to tear down  
Every little dream you have  
Every one that you could ride

This whole world do not mean a thing  
Now that you are gone  
(As I realize, as I realize, as I realize)  
This whole time I have been dreaming  
And now you are gone

As I realize  
As I realize  
Cause I realize  
When you realize  
When you realize  
When you realize

This whole world do not mean a thing  
Now that you are gone  
(As I realize, as I realize, as I realize)  
This whole time I have been dreaming  
And now you are gone
