

Sweet Sixteen

The Kolors

Know that, I know that, I know that oooohh
I know that, I know that, I know that oooohh
I think I'm gonna break (down)
I never felt this way (down)
She usually get me feeling (down)
But now she's making her way (down)

But that just makes me wonder
I'd love to see what's under under
Those skinny jeans around her
She drives me mad as a hatter

Being in love she's not the right girl
She's not the one I was looking for, yeah...
I was looking for, yeah... Come on! She's 16 years old!
She's not the one I was looking for
It's another way of being in love! Yeah!
I feel a little ashamed (now)
I'm in a state of trance (now)
Don't know why she's stuck in my (mind)
It is something I really can't (decide)

But that just makes me wonder
I'd love to see what's under under
Those skinny jeans around her
She drives me mad as a hatter

Being in love she's not the right girl
She's not the one I was looking for, yeah...
I was looking for, yeah... Come on! She's 16 years old!
She's not the one I was looking for
It's another way of being in love! Yeah!
I feel a little ashamed (now)
I'm in a state of trance (now)
Don't know why she's stuck in my (mind)
It is something I really can't (decide)

Come on, leave me alone!
She's not the one I was looking for
It's another way of being in love
Feeling her tongue moving in a better way
In a better way to love
Feeling her curves growing in a better way
In a better way! Yeah!
