

I think I've lost the reason to keep going  
(Why why why)  
I saw her face without that smile upon (it)  
(Why why why)  
This is the cruelest thing I've ever done  
(Why why why)  
Cause I didn't know I was hurting her

Just tell me why you're goin' away  
Why won't you let me stay  
I know, it was my bad  
The fault was mine. I feel so bad!  
Why are you making your way?  
Why don't you let me explain?

From one day to the next you changed my world  
(Why why why)  
You believed all the shit that you've been told  
(Why why why)  
This is the cruelest thing you've ever done  
(Why why why)  
Cause you didn't know I was loving you!  
Do you know how sad it is to lose it all?

Just tell me why you're going away  
Why won't you let me stay  
I know, it was my bad  
Why don't you let me explain  
Why why why why why why  
Why why why why why why  
Why why why why why why
