

# I Can't Stop Thinking About You

The Kry

day by day  
i wake to Your wonders  
in so many ways  
in so many colors

and each time  
i start looking around  
i can see the heavens  
and my heart goes round and round

i can't stop thinking about You

Chorus:

i can't stop thinking about You  
i can't imagine living without You!

if i go millions of miles away  
still i know  
by my side You will always stay

and when my life goes tumbling down  
i can see Your hand  
picking me up off the ground

that's why i can't stop thinking about You

Repeat chorus

i can't stop thinking about You  
i can't imagine living without You  
cause there is nobody else  
who loves me like You do  
i can't stop thinking about You
