

## Let Me Know

The Lacs

Damn it's nice just one call  
Two headlights that's my dog  
Cuz I been gone I been slippin  
Maybe seein me and little money start trippin  
I said naw naw it ain't nothin like that  
He pulled out two shots of Jack  
Leaned on the hood said what you got  
That talk we had won't be forgot  
Now I miss back in '03  
Bein you and me and that's all we need  
Shoot back then we was wild as hell  
Least two or three times you posted my bail  
Told me don't stop when the road gets rough  
Slip and fall you gotta get back up  
All those times you showed me love  
Man I cant tell y'all boys thanks enough

Sometimes we mess around and get in a bind  
Man I'm all outta luck need a bud need a ride  
Just a handful of people that you know you can call  
When you broke when you lost when you caught up with the law  
You ain't gotta think twice bout nothin  
If you ever need somethin buddy I'll come runnin  
And when I get the call you can bet I'll roll  
Let me know let me know let me know

I'll be sittin on go when I get that call  
You're damn right cuz that's my dog  
It don't matter what I got goin  
Hang right up and get it rollin  
Remember that time when you needed a ride

You didn't hesitate to put me inside  
And calm me down and talk me out  
Something dumb for runnin my mouth  
You've seen the ups and felt the downs  
Did bad stuff all around this town  
You was there when things got harder  
Who said blood is thicker than water  
Lord knows we aint even kin  
We been down through thick and thin  
Whether we brothers or we firends  
My ride or die until the end

Sometimes we mess around and get in a bind  
Man I'm all outta luck need a bud need a ride  
Just a handful of people that you know you can call  
When you broke when you lost when you caught up with the law  
You ain't gotta think twice bout nothin  
If you ever need somethin buddy I'll come runnin  
And when I get the call you can bet I'll roll  
Let me know let me know let me know

Sometimes we mess around and get in a bind  
Man I'm all outta luck need a bud need a ride
