## The Last Ten Seconds of Life

"There're no asterisks in this life, only scoreboards  
And ours is currently reading: fucked"

Millennia of chaos tearing at the walls  
But only I can feel it, only I can hear it  
It's all I see now!  
All I see now!

Silver spades and golden chains!  
Silver spades and golden chains!

Glory be to misery  
All hail eternity

"But only I can hear it, only I can feel it"

Glory be to misery  
All hail eternity

Say your peace, time to die  
Terminal, the soul will spiral  
Make your peace, time to die  
Terminal, the soul will spiral
