

Never Fade Away

The Lawrence Arms

I'll never fade away
'till I lodge you deep inside of my bones
Drift out of summer haze
With you I'm never wasting my days
With your eyes, one day at a time
One day at a time

I'll never fade away
Found the lead and the ground of my feet
There's one million ways
They don't trust them and the ash is behind me
With your eyes, one day at a time
One day at a time

I'm fire, I'm fire again
Don't know where I'm heading
But I know where I've been
The new ways to see, new ways to believe
When the darkness descends
We'll be together

I'll never fade, I'll never fade, I'll never fade away
I'll never fade, I'll never fade, I'll never fade
I'll never fade away
I'll never fade away
