

All The Streets Are Gold

The Leaves

All the streets are gold
All the streets are gold
In the morning we let go
And our eyes will cast a glow

All the streets are gold
All the streets are gold
In my heart and in my soul
We were never in control

All the parts we play
Through our busy day
Are tearing us apart
Are braking bitter hearts
In parts...

All the streets are gold
All the streets are gold
In the morning we let go
And our eyes will cast a glow

Hold me endlessly
Unfold me carefully
A bright light's breaking through
It shines on me and you
All is new

All the streets are gold
All the streets are gold,
In the morning we let go
And our eyes are casting glow
All the streets are gold
All the streets are gold
In my heart and in my soul
We were never in control

All the streets are gold...
Golden beams have filled our eyes with colours
The more it burns the more we feel alive...
