

Planets

The Leaves

I've been dreaming of the days gone by
I keep dreaming as they pass me by.
And my thoughts are million miles away from you.

Stars and planets watching over me
Will I ever understand or see
What is happening right in front of me?

Distant planets lift me up
And spin me in hyperspace
In your heights, in starlight
Everything's black and white

Across the city and I never rest
Feel the drum still pounding in my chest
And my thoughts are million miles away from you

Distant planets lift me up
And spin me in hyperspace
In your heights, in starlight
Everything's black and white
I keep floating by
The summer passed me by
Oh how the trees grown high
To the blue
The blue sky
