

Everything Harmony

The Lemon Twigs

And I love the air when it's hazy
And I love the street when it's noisy
And I'm so obsessed by the way the wind feels on me
And I love the sky when it's crazy
Like the lightning strike it's not rainy
And I'm so obsessed when it's everything harmony

I am trying
I like the screen when it's grainy
I don't laugh if something's not funny
And I'm so obsessed when it's everything harmony

I like the hair when it's flowy
And I like the song when it's dreamy
And I'm so obsessed when it's everything harmony

I am trying
I am trying
I know when there is a party
And I know my way in the city
I wanna swim with the waves that crash into me
I can find a place that is pretty
'Cause I know my way in the city
I'm so obsessed by the way your eyes fall on me

I am trying
I am trying
I am trying

All the times I tried
All the times I tried today
All the time
All the times I cried
All the times I cried today
All the time
All the times I tried
All the times I tried today
All the time
All the times I cried
All the times I cried today
All the time
