Tell me your wishes
And I will make you see

Make me your missus And I will let you be

As long as you come home to me darlin'
You will see the light of day
And when I take the train to work in the morning
I'll only be a few hours away
(Come home babe, yeah, you come home baby you will miss me when I'm gone)
(Come home, yeah, you got to come home because you'll miss me when I'm gone)

(We have lives and then it's like "Here just forget all that")
