

Tailor Made

The Lemon Twigs

Aaaaaaah, well I've been missing you just like a dog
Aaaaaaah, I never thought that it would be this hard

But when I seen her today
And invited her backstage
She brought around her man
Ooh baby understand
I can't see you walking round with him

Girl, you really kill me with that long blonde hair
Aaaaaaah, the way you're looking, baby, it ain't fair (No it's not)

And when I seen her today
And invited her backstage
She brought around her man
Ooh baby understand
I can't see you walking round with him

Oh babe
For you I was tailor-made
I wanna put myself away
But I don't know how to take
The heartbreak

Aaaaaaah, you drive me wild with your long blonde hair
Aaaaaaah, the way you're looking, baby, it ain't fair

But when I seen her today
And invited her on stage
She sang a song for us
And wants to get [?]
Can't believe she's going round with him
Can't you see that you don't belong with him?
Baby please just give me one more chance
