

The Corners I Was Locked Behind (When I Was There)

The Lemon Twigs

Oh, you told me the way
Even if it's clear when I say
Fearing you know me this way
On the day

When you sold me all the feelings that were on
You were cold and strong
I couldn't carry on
Not so bold was I
The corners I was locked behind
When I was there

Oh, you sat on our rug
Oh, you gave out free hugs
No, you can't with my brain
Not today

With this hole in me, the weaknesses you see
With the goal to be the ruler of the free
Not so bold was I
The corners I was locked behind
When I was there

And I know that you thought I could myself
And it shows that I can't handle myself

I know that you thought I could myself
And it shows that I can't handle myself

In the final tale, we're over to prevail
Like when you felt despair
There's nothing there again
Not so bold was I
The corners I was locked behind
When I was there
