

This Is My Tree

The Lemon Twigs

Baby I just discovered a new thing
Deep inside the forest hear them say
Those spirits got it right but I could do with this natural light
This natural light

Don't think it matters what I done
I've been covered in terms of the sun
You know that sun will rise again
Cause every night's a funny end
A funny end
So try and stay free

This is my tree
Stay far away from me
You can do what you wanna do with yours
This is my tree
Stay far away from me
You can do what you wanna do with yours

I can get to living on the run
Swinging, eating, mating, simple fun
Like the sun come up again
Remind me there's no end
There's just no end
So on the physical plane
I'll hold on to one thing
Just to keep myself sane

This is my tree
Stay far away from me
You can do what you wanna do with yours
This is my tree
Stay far away from me
You can do what you wanna do with yours

This is my tree
Stay far away from me
You can do what you wanna do with yours
This is my tree
Stay far away from me
You can do what you wanna do with yours
Just do it on your own time

This is my tree
Stay far away from me
You can do what you wanna do with yours
This is my tree
Stay far away from me now
You can do what you wanna do with yours
