

What You Were Doing

The Lemon Twigs

How can you do
What you do
To me?
And make me sad
And make me mad too
How can you say
What you say
To me?
And turn me round
And turn me off too

If I ever said anything
To make you wonder what you were doing
If I ever said a single thing
To make you wonder

How can you play
How you play
With me?
And show me off
And put me off too
How can you think
What you think
Of me?
And wring me out
And freak me out too

If I ever said anything
To make you wonder what you were doing
If I ever said a single thing
To make you wonder

I really wanna know
Oh, I wanna know
Oh, I wanna know just where you are
I really wanna know
Oh, I wanna know
Oh, I wanna know just where you are

If I ever said anything
To make you wonder what you were doing
If I ever said a single thing
To make you wonder
What were you doing?
What were you doing?
