

(Dee Dee, I feel us getting together
Dee Dee, I feel us getting together
Dee Dee, I feel us getting together
Dee Dee, I feel us getting together right now)

(C'mon, let's do it!)

Divide my head
You're barking up the right tree
I tied my rope
Unhook me

I lay down my tracks
I make the laws here
Give me all of your fear
Give me all of your fear

I looked down the mountains
There's a hole
There's a tired old fountain
There's a soul

The time draws near
Give me all of your fear
Give me all of your fear

Yeaahhhhh

I don't have to justify myself to you
I just gotta do what I wanna do
Don't be scared it's just a song
Don't be scared just to sing along

Gotta remember
Your middle finger
Unhook me
Unhook me

Unhook me
Unhook me
Unhook me

I chopped up nine homes
My god, I killed everyone
Now what?
Now what?

You've seen them now I'm turning in
I lay down the tracks
I make the laws here
Give me all of your fear

Give me all of your fear
