

# Pain

## The Letter Black

Open your eyes  
And you will see  
Pain all around  
Mostly the same  
What can you do  
Turn back the time  
Change what has been  
Just push rewind

There's something you can't do  
To take away all the pain  
There's something you can't do  
To take away all the pain

Leave them fighting  
Or reach out instead  
They might just find  
Some peace in their eyes  
You might just be  
Their only friend  
You have the [?]  
To put them on end

There's something you can't do  
To take away all the pain  
There's something you can't do  
To take away all the pain

There's something you can't do  
To take away all the pain  
There's something you can't do  
To take away all the pain
