

## Captain's Courageous

The Levellers

Kick the sheets off, get out of bed  
Good morning, deja vu  
Is this the best thing in my head  
Good morning, now what to do  
Look at my day, what's the first appointment  
Lunch in heaven, what a disappointment

I could run away with captain's courageous  
I could live on fruit in Montego Bay  
I could run a bar in a war torn front line  
I could do it all but just not today

Good morning TV, now what's been said  
Around the world while I'm in bed  
Nothing changes 'cause we're still being fed  
On little white lies and stale white bread  
Look at my day, what's my next appointment  
Dinner in hell, what a disappointment

I could run away with captain's courageous  
I could live on fruit in Montego Bay  
I could run a bar in a war torn front line  
I could do it all but just not today

Another social misery  
For four hours every day  
I live for they and they live for me  
For hours and hours every day

I could run away with captain's courageous  
I could live on fruit in Montego Bay  
I could run a bar in a war torn front line  
I could do it all but just not today

I could free my mind become a rich man's guru  
I could take the time just to feed the world  
Could drink all day until I find all the answers  
I could do it all but just not today
