

## Second Life

The Levellers

Free for all  
That's how it's meant to be  
Night after night  
The world gets the real deal

Oh, principle you see  
They're in the gun sights  
All erased from our memory

'Cause it's better than real life  
Even better than a real wife  
We're broke, oh every night  
He's got the answers all right

Mind expanded  
Always gaining speed  
Quick fix immortal God  
Saviour that doesn't believe  
Their behaviour  
Moving from scene to scene  
Get out of the room before anybody knows you've ever been

'Cause it's better than real life  
Even better than a real wife  
We're broke, oh every night  
He's got the answers all right

Second lives we live  
Real life goes  
Second life dreams  
But real life hopes

So brightly coloured and so very loud  
As long as you keep paying second life will never let you down  
And there's just one problem

Just gotta keep going 'cause this missions all you'll ever need

'Cause it's better than real life  
Even better than a real wife  
We're broke, oh every night  
He's got the answers all right  
Even better than real life  
Even better than a real wife  
We're broke, oh every night  
He's got the answers all right

Second lives we live  
Real life goes  
And second life dreams  
When real life hopes  
And second life's real  
Real life goes  
Second life dreams
