

## City Bright Stars

### The Lightning Seeds

Everywhere I go you're there  
Shut my eyes and there you always are

Hold my breath and hold you in  
I can feel you lighting up my skin

City bright stars always shining in my eyes  
I love these nights they never ever say good-bye - good-bye

Everywhere you hear the sound  
On every single day in every town

When i'm lost and down  
I see the lights and then I know i'm found

City bright stars always shining in my eyes  
And look these nights they never ever say good-bye - good-bye

Never say goodnight  
Never fade and die  
Red eyed alibis  
Never say good-bye

City bright stars always shining in my eyes  
And look these nights they never say goodnight

Never say goodnight  
Never fade and die  
Red eyed alibis  
Never say good-bye
