

## Said and Done

## The Lightning Seeds

Heavens love  
What on earth are we still dreaming of?  
Taste of love's still here  
It's a blessing in these passing years  
As time rolls on  
The diamonds in our days are gone  
There were songs and tears  
There was menace in those passing years  
All words of tenderness  
Both deciding there'll be no regrets  
Coz words were spoken  
And hearts got broken

Over and over  
Life keeps messing with my plans  
For you girl  
I'll say these words  
Beware of the shifting sand

It's said and done  
Nothings ever really fair in love  
Could be curse or charm  
Take you somewhere, keep you safe from harm  
And a time may come  
For moving on

Over and over  
Life keeps messing with my plans  
For you girl  
I'll say these words  
Beware of the shifting sand  
It slips right through your hand
