When the world conspires to paint you blue
And you need a friend
To say, "Get on board, this world's a big balloon"

But there's nothing you can do
You heard the tune
The song, it's ended too soon

And tears they flow, they're rolling down
Even though I hope, I'll see you in the stars
I'll see you in the stars

So they say that life's a piece of pie
Here's mud in your eye
You raise a glass, but dreams, they won't come true

And there's nothing I can do
I wish I knew
Do the angels smile and laugh along with you?

'Cause I hope they do
In this I find, peace of mind
See you in the stars
I'll see you in the stars

Hard times, they may define us
Hard days, they always find us
Stay strong, move on
Believe in love when things go wrong
Stay strong, keep on
Believe in love when things go wrong
When those tears keep falling
Stop those tears, from falling down

See you in the stars
