## What If...

## The Lightning Seeds

You've been away so long, too long What's wrong with us today We're running out of funny things to say Home, I'm almost glad we made it I never thought we'd see the day.

What if now, after all What if everything you've Got made you want more What if now, after all, You've still not sure.

Remember, when a thought
Could last forever and a day.
Let's get back to
Waking up this way
Love, I'm almost glad we've made it
I never thougt we'd see the day

What if now, after all What if everything you've Got made you want more What if now, after all, You're still not sure.

But before you slip, take a friendly tip From a friendly face on a sinking ship Don't ever doubt it, scream and shout it out.

What if I miss you What if I need you
