

# Gimme Control

The Limousines

What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
Just get the feeling right...

True love  
Spilling for you like you  
Drew blood  
Let it go and when it  
Comes back  
Let it go again it's true love  
True love  
But you gotta gimme control  
You gotta gimme control  
You gotta gimme control  
You gotta gimme control  
Oh baby

What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
Just get the feeling right...

You trust  
When you know it and you  
Blew up what was home  
And then you  
Threw up  
All your soul food  
And you're choking on your bible  
Because you never gave up control  
You never gave up control  
Oh baby

What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
Just get the feeling right...

Spiral  
Here it comes again  
It's viral vertigo

And when you come down  
Just a body on the ground  
Just a body on the ground....

What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
What goes around  
Comes back down  
Don't matter how  
Just get the feeling right  
Just get the feeling right...
