

## Parachute

The Limousines

This pill gets me out of bed, this one ties my shoes  
This pill helps me cope with all my memories of you  
This pill stops the worries when I start to come unglued  
This pill makes me disco when I just wanna sing the blues  
This pill starts the party, it could be my only friend  
This pill makes the day feel like the night may never end  
This pill takes the blame for all the messages I send  
But it's my little parachute 'cause I know I'll fall again

(I've got my parachute)

This pill makes me Superman when I feel Lois Lane  
This pill makes me dirty, this one washes sins away  
This pill helps me fall asleep, tomorrow's a big day  
This pill makes me charming when I don't know what to say  
This pill makes me wanna fight and this one hides the bruise  
This pill takes my mind off all the bullshit in the news  
This pill gets me dancing when I don't know all the moves  
This pill is my parachute so I can jump with you

I'm a sunset framed and nailed up on the wall  
Yeah the world is burning, I can see it all from up here  
I am keeping calm and I'll just carry on  
I'm okay 'cause, I'm okay

I've got my parachute
