

## Scream Please

The Limousines

I never figured it could come to this  
The words you whispered and the way you kissed  
I never thought I'd end up on my own  
Promises broken on the telephone

And I would scream please if I thought that it could changed yo  
ur mind  
I would scream please if I thought that it would erase my lies

The love we knew is just a memory  
Dreams of a future that could never be  
Cannot be sure of anything I know  
I see you here and away you go

And I would scream please if I thought that I could changed you  
r mind

No I won't, I won't get over you

No I won't, I won't get over you

I would scream please if I thought that I could changed your mi  
nd  
I would scream please if I thought that it would erase my lies

Erase my lies  
Erase my lies  
Erase my lies
