

Stumble Back to You

The Limousines

Sometimes the toys we play with are just so dangerous
What starts off as fun and games always ends in flames for us
Maybe hearts aren't built quite like they used to be
Nowadays they seem to break so easily
But if it's alright with you it's alright with me
If you wanna waste the rest of your life with me

Cuz I know this much is true
Before the night is through
I'll turn around and stumble back to you

We fall asleep holding hands in a dream
But we live through our nightmares alone
And we walk the streets with our hearts on our sleeves
And wherever we end up is home

So if you don't mind, yeah if it's alright with you
Think I wanna waste the rest of my life with you
Don't know if there's anywhere that I would rather be
And I don't know what you see in a mess like me

But I know this much is true
Before the night through
I'll turn around and stumble back to you

But I know this much is true
Before the night through
I'll turn around and stumble back to you
I'll turn around and stumble back to you
I'll turn around and stumble back to you

We fall asleep holding hands in a dream
But we live through our nightmares alone
And we walk the streets with our hearts on our sleeves
And wherever we end up is home
