

## Coffin Nails

### The Locust

Massive production for human consumption  
Pesticidal waste, what once was fertile earth  
Defiled farmland won't sustain life  
What can you do to end the hunger  
It's no surprise that many will die  
With the coming shortage of food  
When there is no grain to feed the butchered cows  
When there is no grain to feed yourselves  
Then you will see that money can't be eaten
