

## They're on to Something

### The Lonely Forest

I just bought a new DVD  
To go hand in hand with the player.  
And that's one step closer to fulfillment.  
My friend just bought a new purse  
Handcrafted or so that tag claims.  
And that's one purse closer to hip.

At our rate of production and inventions  
I'm not sure the world can keep up.  
A steady decline into simplicity is what I've observed.

And I believe they're on to something!  
And I believe they're on to something!

A jet just flew overhead  
Equipped to defend and defeat.  
And that's one jet closer to safety.  
I just purchased more pills  
To help me sleep naturally.  
And that's one pill closer to rest.

At our rate of production and inventions  
I'm not sure the world can keep up.  
A steady decline into simplicity is what I've observed!  
Served! Served!

And I believe they're on to something!  
And I believe they're on to something!  
And I believe they're on to something!  
And I believe they're on to something, no!
