

[Verse 1:]

And this is my best chance at reinventing sounds and colors  
Maybe a blue or a green will  
Do you want to be my friend?  
We can pretend we've known this all of our lives

[Chorus:]

We hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
To warm and happy  
We hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
To warm and happy

[Verse 2:]

Now that we've established touch and smell  
It hurts like hell when I'm far away  
And I hate to say the words "I'll see you soon"  
The moon is judging us, its stare is a glare

[Chorus:]

We hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
To warm and happy  
We hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
To warm and happy

[Instrumental Break]

[Chorus:]

We hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
To warm and happy  
We hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
Hate to relate 'til we synthesize  
To warm and happy

[Outro:]

We're done waiting  
We're done hiding  
We are ever-reaching towards the end  
We're done waiting  
We're done hiding  
We are ever-reaching towards the end  
We're done waiting  
We're done hiding  
We are ever-reaching towards the end  
We're done waiting  
We're done hiding  
We are ever-reaching towards the end
