

Devil's Kind

The Longshot

Beer stains and cigarettes
The party is in my pocket
I'm looking for a drink
And a couch to call my own
Give me a bump and I will call
And whisper dirty lies
The rapture in your ear
And we'll both be terrified

Bloodshot eyes and you're peppermint
We can roll like dogs from the devil
Gimme one last try for your love tonight
I'll be the king forever
And you can be my sunshine

We are the devil's kind
We are the devil's kind
We are the devil's kind
And now I won't back down
I said I won't back down
I am the devil's kind

Take me into the water
And pull me from the slaughter
Because I've got the shakes
And I'm so petrified

Bloodshot eyes and you're peppermint
We can roll like dogs from the devil
Gimme one last try for your love tonight
I'll be the king forever
And you can be my sunshine

We are the devil's kind
We are the devil's kind
We are the devil's kind
And now I won't back down
I said I won't back down
I am the Devil's...

We are the devil's kind
We are the devil's kind
We are the devil's kind
And now I won't back down
I said I won't back down
I am the devil's... kind
