

Between Stages

The Lost Trailers

4 bald tires
Long lonely road
Got another 200 miles
Yet to go
Your memory
Still can't escape it
Between stages

Tired motel
Same worn out lines
From another girl I won't see after tonight
Your memory
She can't erase it
Between stages

Up here in the spotlight
Everything is alright
These are the moments
When I finally feel fine
The only thing I'd change is
The time, between stages

Corner booth
Jack on the rocks
Pic up my phone
To call you then I stop
Your memory
Has got me wasted
Between stages

Up here in the spotlight
Everything is alright
These are the moments
When I finally feel fine
The only thing I'd change is
The time, between stages

When the lights go down
After my last song
I'm just praying that it won't last long
Till I'm

Up here in the spotlight
Everything is alright
These are the moments
When I finally feel fine
The only thing I'd change is
The time, between stages
