

## The Battery

## The Lost Trailers

I woke up on The Battery on a Charleston Friday night  
With my dirt-  
stained Corduroys and Balances crumpled up by my side  
I said goodbye to my company, then I shook it on down the line  
Sometimes I get a little lonely, and wish I hadn't left her behind

'Cause every highway bears a bright sign, posted on the side of  
a roaring world  
And every passerby rolls back again, and in the end, you get what  
you're looking for  
So just give me my good friends, And a good hearted woman  
Just give me some high times to fall back on  
Sometimes I might need a cool drink and the good Lord to save me  
Then I will be found, then I will be found

Ran out of gas on the freeway, 'bout a quarter mile from Abilene  
That Texas sun just-a hung in the sky, smiling on me  
A stranger stopped named Casey, said he's a friend of a friend  
of mine  
He said, "It shore is a small world." I said, "It suits me just  
fine."

'Cause every highway bears a bright sign, posted on the side of  
a roaring world  
And every passerby rolls back again, and in the end, you get what  
you're looking for  
So just give me my good friends, And a good hearted woman  
Just give me some high times to fall back on  
Sometimes I might need a cool drink and the good Lord to save me  
Then I will be found, then I will be found

Well they put me in a jail cell before a race in Bristol, Tennessee  
Don't you go to Sully County if you want to be free  
But there are two ways you can take things, you can make them right  
or keep them wrong  
So I kept my mouth closed and played Dominoes 'til the judge sent  
me home

'Cause every highway bears a bright sign, posted on the side of  
a roaring world  
And every passerby rolls back again, and in the end, you get what  
you're looking for  
So just give me my good friends, And a good hearted woman

Just give me some high times to fall back on  
Sometimes I might need a cool drink and the good Lord to save me  
Then I will be found, then I will be found

So just give me my good friends  
And a good hearted woman  
Just give me some high times to fall back on  
Sometimes I might need a strong drink  
And the good Lord to save me  
Then I will be found, I will be found
