

## The Battery

The Lost Trailers

I woke up on The Battery on a Charleston Friday night  
With my dirt-  
stained Corduroys and Balances crumpled up by my side  
I said goodbye to my company, then I shook it on down the line  
Sometimes I get a little lonely, and wish I hadn't left her beh  
ind

'Cause every highway bears a bright sign, posted on the side of  
a roaring world  
And every passerby rolls back again, and in the end, you get wh  
at you're looking for  
So just give me my good friends, And a good hearted woman  
Just give me some high times to fall back on  
Sometimes I might need a cool drink and the good Lord to save m  
e  
Then I will be found, then I will be found

Ran out of gas on the freeway, 'bout a quarter mile from Abilen  
e  
That Texas sun just-a hung in the sky, smiling on me  
A stranger stopped named Casey, said he's a friend of a friend  
of mine  
He said, "It shore is a small world." I said, "It suits me just  
fine."

'Cause every highway bears a bright sign, posted on the side of  
a roaring world  
And every passerby rolls back again, and in the end, you get wh  
at you're looking for  
So just give me my good friends, And a good hearted woman  
Just give me some high times to fall back on  
Sometimes I might need a cool drink and the good Lord to save m  
e  
Then I will be found, then I will be found

Well they put me in a jail cell before a race in Bristol, Tenne  
ssee  
Don't you go to Sully County if you want to be free  
But there are two ways you can take things, you can make them r  
ight or keep them wrong  
So I kept my mouth closed and played Dominoes 'til the judge se  
nt me home

'Cause every highway bears a bright sign, posted on the side of  
a roaring world  
And every passerby rolls back again, and in the end, you get wh  
at you're looking for  
So just give me my good friends, And a good hearted woman

Just give me some high times to fall back on  
Sometimes I might need a cool drink and the good Lord to save me

Then I will be found, then I will be found

So just give me my good friends  
And a good hearted woman

Just give me some high times to fall back on  
Sometimes I might need a strong drink  
And the good Lord to save me  
Then I will be found, I will be found
