

## Spot The Setup

The Loud Family

What's goin' on?  
I used to go out with supermodels  
But it didn't make my life okay  
I used to be the cold stare, don't care  
Stay fresh in the Frigidaire  
I just assumed that was amore  
I didn't spot the setup

I used to get A's in psychology class  
But it didn't make my life okay  
I used to be the point-blank think tank  
What I say or daddy spank  
I just assumed that would pay the way  
I didn't spot the setup

And I could always be the judge  
And bear the grudge  
And tell you where you lost it  
And I could always be the one  
Shade your sun  
And steal your fun away  
But it didn't make my life okay

That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup

That was my mistake  
I didn't spot the setup  
That was my mistake  
I didn't spot the setup  
You were a prince to give me a chance  
I didn't spot the setup  
That was my mistake  
You were a prince to give me a chance  
I'll do better next time
