

When I Loved You

The Louvin Brothers

When I loved you, you didn't want me
You packed me away from the glow of you heart
When I loved you, you loved me too
But you didn't know it, darling, till another won my heart

I got the message you sent by a friend
Telling me that you have to be with me once more
You heard of my wedding and you can't believe it
But my heart is safe now, it don't ache no more

When I loved you, you didn't want me
You packed me away from the glow of you heart
When I loved you, you loved me too
But you didn't know it, darling, till another won my heart

You say that you need me more than you need life
And you've asked me to cheat her and meet you tonight
But how could you want me if I were untrue?
And you know if I cheat her, then I'd cheat you too

When I loved you, you didn't want me
You packed me away from the glow of you heart
When I loved you, you loved me too
But you didn't know it, darling, till another won my heart
