

All Together

The Lovemakers

Lonely Voices
Give each other the means to confess
We love in excess
We lie together

Modern distress
Holding onto the terms of conscience
Is love sickness?
We try together

They try to blind us but we see
We live together to be free

I'm 9, you're 5
We get together to stay alive
Dawn shakes the stars from our eyes
We rise together

Nature's redress
Last chance for excellence
Sons and daughters of opulence
Shine on forever

They try to blind us but we see
We sing together to be free

Come Together
Live Together
Sing Together
As One Forever

I want them all, all of your voices
We sing together, as one forever
Come, come to me child
The tide is turnin
We sing together
As one forever.

They try to blind us but we see
We sing together to be free
They try to blind us but we see
We come together to be free
