

## (Till I) Run With You

The Lovin' Spoonful

Love's a surprise to me  
Brings out the heights in me  
That's not the way it used to be  
I used to be blue  
Then you showed me the love of near  
And that's all I have to hear  
I can't believe that dreams come true  
Till I run with you  
Now I can't sleep at night  
Till I run with you  
Till I do nothing will be right  
I'm goin' downtown takin' in a look or two  
Till I run with you  
What else can I do?  
You came one lonely day  
It took me another way  
I'd pack up my heart and run away  
But I got some things to do  
I'll have to wait another day  
Till I run with you  
Oh, oh..  
Nothin' will be right  
Till I run with you  
Until I run with you  
Nothin' will be right  
Till I run with you  
Till I run with you
