The Luka State

Late night and no-one's calling
She's waiting by her phone
I know that they're not talking
Going down the same old road
I wish that I could save her
And we could disappear
Pack up and leave forever
And just get out of here
But wait

Think for a moment
Can you take it on the other side?
Take it on the other side
But wait
Think for a moment
Can you take it on the other side?
Take it on the other side

Here we go again, she's broken
I helped her ease her mind
Upset and softly spoken
Everything'll be all right
She's playing with my emotions
Should've seen the warning signs
I leave, torn and defeated
I can't win, I can't win
But wait

Think for a moment
Can you take it on the other side?
Take it on the other side
But wait
Think for a moment
Can you take it on the other side?
Take it on the other side

So come and do me wrong
'Cause I can take this
'Cause I've been here before
I know I can beat this
So come and do me wrong
'Cause I can take this

Well
Here we are again, she's broken
I try to ease her worried mind
Upset and softly spoken
Everything'll be all right
She's playing with my emotions
Should've seen the warning signs
I leave, torn and defeated
I can't win, I can't win
But wait
