

## What's My Problem

The Luka State

Systematic, you're insane  
You're just like a problem that never ends  
Take all the sunshine and give it away  
Did you get what you paid for?

I'm in love 'cause I wanna be lonely  
So what's my problem?

I cut you loose and let it go  
I'm keeping it simple (simple)  
A broken switch is turning me on  
It's all very simple (simple)  
Systematic, you're insane  
You're just like a problem that never ends  
Take all the sunshine, take all the rain  
It's never my problem

I'm in love 'cause I wanna be lonely  
So what's my problem?  
So what's my problem?  
So what's my problem?  
So what's my problem?  
Yeah, what's my problem?
