

Falling

The Lumineers

I love you
And everything about you
Won't you stay away
So I can get my work done in the day, Okay
And maybe in the meantime,
You and me will be fine

If you just relax
And check your eyes for cataracts
It's plain to see
That I was meant for you and you were meant for me
Darling hold me tightly,
I think you and me we might be
Falling, Falling, Falling, I'm falling

In love

Drama queen,
Like when you see a fire
You grab the gasoline
Now honey please calm down,
Yes don't make a scene
They're asking us to leave now,
I'm calling the police now

Yes he's a manly man
Cause you're defending me just like a punching bag
But I can take a punch
If you can take a jab

You catch me when I fall

And dress your wounds with alcohol

I'm falling, falling, falling, I'm falling

In love
