# NEVER REALLY MINE

**The Lumineers**

Love was not designed for time
You were never really mine
Find a love, I was leveled at the sight of you
You were wrong, what I needed was a little clue

All alone in the middle of the night
Give it, give it up just to leave it on the line
Love was not designed for time
You were never really mine

All alone at the traffic stop light, I
Live at home 'cause I never knew the right time
Everyone's gonna leave it where you left
You're a woman on the run, I'm the silence on the staircase

Love was not designed for time
You were never really mine
Love was not designed for time
You were never really mine

Hey don't you fade, don't you fade away
Hey don't you fade, don't you fade away
Hey don't you fade, don't you fade away
Hey don't you fade, don't you fade away
Hey don't you fade, don't you fade away
Hey don't you fade, don't you fade, don't you fade

Say it once so the neighbors all can hear you
I'm the one who was never gonna play to lose
All of a sudden you're fallin' out of frame
I was lookin' through the camera, you're lookin' for a way out

Love was not designed for time
You were never really mine
Love was not designed for time
You were never really mine

Never really mine
You were never really mine
