

## Feeling Better

The Magic Gang

It's hard to say  
Why I still blame  
For all the games you played  
And all the choices that you made  
You took me away  
From where I was safe  
Left me in the dark  
Black and blue right from the start

I just hope that you're feeling better now  
I just hope that you're feeling better now

Where did I see  
We are make-believe  
That you really let me down  
Well maybe I accept it now  
And above the sky  
Ceiling is high  
But I can see it's here  
The sight, the sound, it takes to hear

I just hope that you're feeling better now  
I just hope that you're feeling better now

I just hope that you're feeling better now  
I just hope that you're feeling better now  
I just hope that you're feeling better now  
I just hope that you're feeling better now
