

# Take Back The Track

The Magic Gang

Evening  
At a bar in north side  
Is where we all were last night  
Somewhere too loud to hear ourselves

And just then  
I heard something entrancing  
I couldn't stop myself from dancing  
To a song that went just like this

Take back the track  
I wanna hear it again  
Take back the track  
I return, and I beg the DJ  
To identify the song name  
Oh, but she couldn't remember  
That song, so beautiful and timeless  
In the light of dawn I've found it  
Could you play it all over again?

Take back the track  
I wanna hear it again  
Take back the track

Take back the track  
Do it again  
Take back the track

Take back the track  
I wanna hear it again  
Take back the track

Take, take back the track  
Do it again  
Take back the track

Take back the track  
Take back the track  
Take back the track  
Take back the track  
Take back the track  
Take back the track
