

E.N.D.

The Magic Numbers

How you do right
So what if it was all just denied
Comes the urge to take control
And don't be so afraid if you let it go

Show me what it takes to turn you on
I know that you've been waiting for so long

You said I'm all out of time
Funny how it's you who decides
It's just the feeling that you crave
It won't go away

Tell me if we're moving way too fast
I hope that we can make this moment last
Just a first time - I never wanted to end
I never wanted to end
I never wanted to end
I never wanted to end

How you turn on a lie
When suddenly there's nowhere to hide
It's just a feeling that we played
When it won't go away

Show me what it takes to turn you on
I know that you've been waiting for so long

Well you know, you can get there first
I never wanted to end
I never wanted to end
I never wanted to end
I never wanted to end

Will I feel alive?
Will I feel alive?
Will I feel alive?

I never wanted to end
I never wanted to end
I never wanted to end
I never wanted to end
I never wanted to end
I never wanted to end
I never wanted to end
