

This Is A Song

The Magic Numbers

A

I don't wanna tell her
No don't want to tell her

D

I lie awake in the dark

Bm

Lost in the beat of my heart
Well baby look over your shoulder

A

you're not alone in this love

A

I don't wanna tell her
No don't want to tell her

D

That I've been thinking of you

Bm

Lost in the things that you do
Maybe its over

A

but over is not a word that you know

CHORUS

C#m

And if it hurts me baby you know why

E

I go it alone

C#m

Hurt me baby if you like

E

It's already gone

A

I don't wanna tell her
No don't want to tell her

D

I've been calling your name

Bm

Each time it feels its in vain
Maybe its over

A

but over is not a word that you know

A

I don't wanna tell her
No don't want to tell her

D

I've been falling apart

Bm

Broke every rule from the start
Baby look over your shoulder

A

you're not alone in this love

CHORUS

C#m

And if it hurts me baby when you try

E

To go it alone

C#m

Hurt me baby if you like

E

You're already gone
